

# WHMIS

## QUICK REFERENCE

Explosives,  
Self Reactives,  
Organic Peroxides

Acute Toxicity  
(Oral, Dermal, Inhalation),  
Skin Irritation/sensitization,  
Eye Irritation, Organ Toxicity

Flammables,  
Self Reactives,  
Pyrophorics, Self Heating,  
Organic Peroxides

Corrosives, Skin Corrosives,  
Eye Damage

Oxidizers

Gases Under Pressure,  
Chemicals Under Pressure

Acute Toxicity  
(Oral, Dermal, Inhalation)

Acute/Chronic Hazards  
To Aquatic Environment

Carcinogenicity,  
Mutagenicity,  
Reproductive Hazards,  
Aspiration Hazard

Biohazardous  
Infectious Materials

**The following information can be found in a safety data sheet:**

- |  |   |                               |
|--|---|-------------------------------|
| 1. Identification                            | 6. Accidental Release Measures              | 11. Toxicological Information |
| 2. Hazard Identification                     | 7. Handling and Storage                     | 12. Ecological Information    |
| 3. Composition/Information<br>on Ingredients | 8. Exposure Control/<br>Personal Protection | 13. Disposal Considerations   |
| 4. First Aid Measures                        | 9. Physical and Chemical Properties         | 14. Transport Information     |
| 5. Firefighting Measures                     | 10. Stability and Reactivity                | 15. Regulatory Information    |
|  |   | 16. Other Information         |

\*\*SDS sheets must be available to workers

Workers must be trained on how to read a WHMIS label and identify and understand the significance of the pictograms. They must also be trained to read and understand safety data sheets. Most importantly, workers must be trained to safely use the chemicals required for their jobs.
